

VT14 – Multi-purpose Vehicle

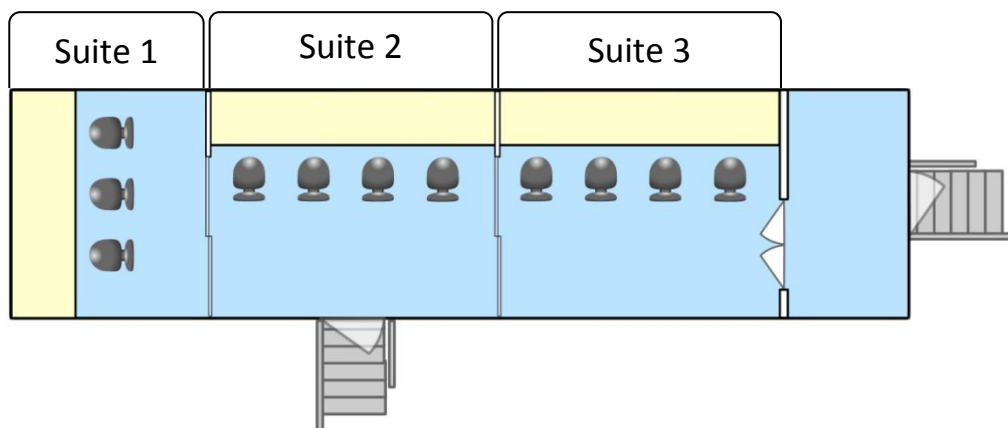

ARENA

Unit Summary

A highly flexible workspace, comprising of three air-conditioned, sound-proofed suites. Each separated from the other by a set of sliding glass doors. VT14 is based around a 12m long articulated trailer and has two sets of access steps. Apart from wall mounted monitoring, the layout of each desk is then customisable to meet a Client's individual needs.

VT14 provides a range of support functions such as: Liner/Non-Linear editing, and/or VT logging, and/or a Production office, and/or a Green room, and/or a Graphics operation.
